This article will show you how to add files to unrealBook.

Launch Itunes, connect the iPad to the computer.

In this case we are showing iTunes 12.

Select the iPad icon

Select Apps under Settings

Scroll down until you see File Sharing

Select unrealBook under File Sharing

Scroll down with inner scroll bar to see Add button

If necessary, widen the window and locate the inner scroll bar for the documents pane.

Press the Add... button to select PDF files to add to unrealBook

An open dialog will appear and you can shift select multiple PDF files to add to unrealBook. An alternative is to drag files into the documents area on the right. To delect a file in the documents pane - select it and then press the delete key on the computer keyboard.
