This will show you how to copy files from your computer back to the iPad

Connect your iPad to the computer using the USB cable. Click on Apps then locate unrealBook and double-click on the icon to open it.

once unrealBook's icon has been located, double-click on it to open the app contents.

Locate the Documents folder and double-click on it.

The Documents folder is where your PDFs and files are stored. It may take a while for the Documents folder to open if you have lots of files.

Choose List view if desired.

Choose Copy to Device to copy files from your computer to unrealBook's document folder.

When you click on Copy to Device you will get a dialog that allows you to select files to copy to the iPad. Shift or command click to select multiple files.
