How to delete a set list

Note that deleting set lists and files are intentionally made to have extra steps so that you don't accidentally delete them easily.

From the online manual

You use the configure button in the set list popup to delete your set lists.

et Lists			Drag to re-order	
Name	Date	Rescan	Delete	

So how do you get to the set list popup and configure button

The set list popup is the main popup on the center bottom of the screen in the set list toolbar. Once you have the popup open, the configure button is on the top right.

How to delete a set list

Once the configure button is pressed, you can use the delete button to access the delete functions.

Deletion happens like any other iOS app. There will be red minus buttons and you can press them to delete a set list.
