

How to grab files off of backups with iMazing

In this case, we will access my iPad running iOS 9.1

Select a backup in iMazing

How to grab files off of backups with iMazing

Choose File System on the right

Double-click on it to enter the file system.

How to grab files off of backups with iMazing

Locate unrealBook by icon

Double-Click on the icon

Double-click on the Documents icon

How to grab files off of backups with iMazing

You will now have access to all of your unrealBook files from the backup. Grab what you need and save to your computer.

You can view by list as well.
