

# How to import a PDF from email into unrealBook.

Note: your files must be in PDF format and have a .pdf or .PDF extension

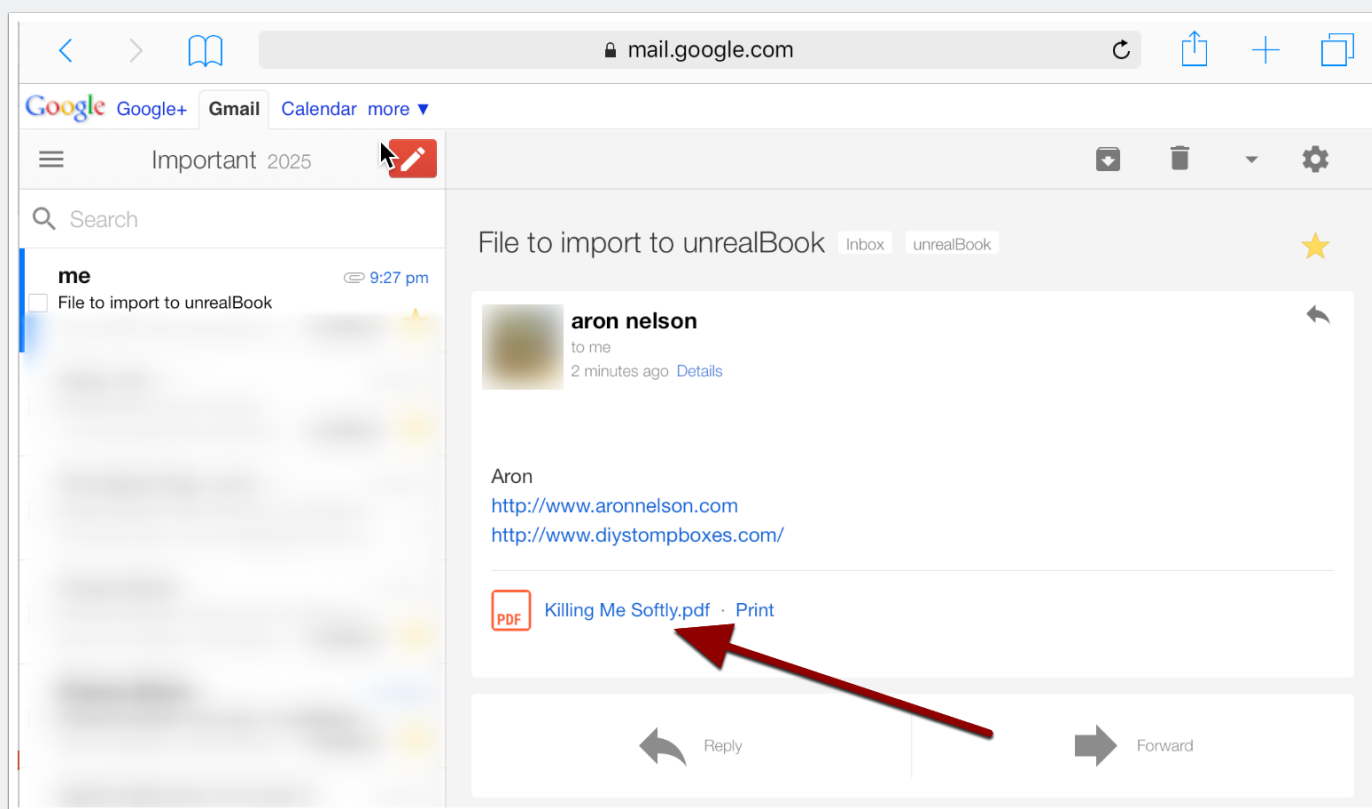

## Email yourself a PDF

In this case I am using Gmail.

# How to import a PDF from email into unrealBook.

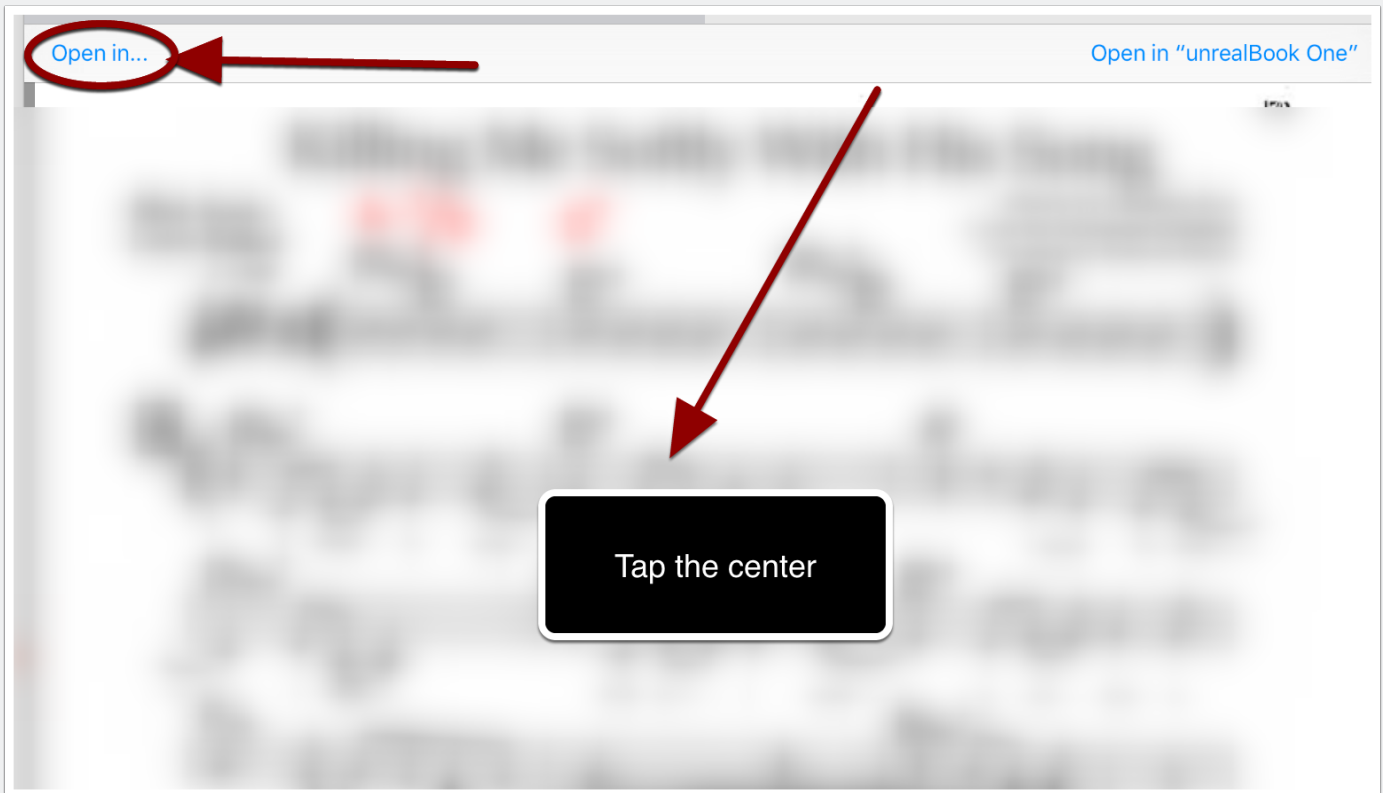

Read the email in Safari Web Browser and press the PDF icon.

Notice how the file has a .pdf extension.

# How to import a PDF from email into unrealBook.

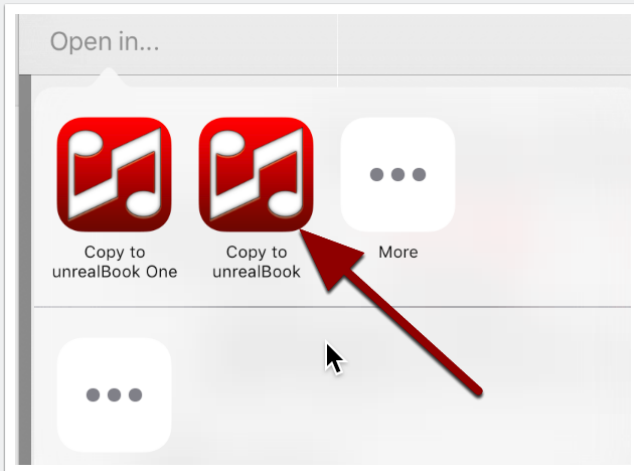

**Press on the center of the PDF image to show the menu and press Open In....**

# How to import a PDF from email into unrealBook.

## Choose Copy to unrealBook

unrealBook will run and the import window will appear.

# How to import a PDF from email into unrealBook.

## Press import

Optionally rename your file before choosing import. After pressing Import, the file will load.
