(in) AirDrop				
Applications				

Select your iOS device from the AirDrop window - click it.

In this case it is my iPhone

Accept and send the file to the appropriate app.

In this case, unrealBook Mobile

In the app that receives the file, save it according to the app prompts.

In unrealBook Mobile, you can rename and import the file. Every application will have a different import window. After importing, your file will be available in the application.
