# Sharing Lists from Reminders app

Sharing lists with another person is easy. Here's how to do it in the Reminders app.

## Open your list in the Reminders app on the iPhone. Press the Edit button

Each list will appear as a card in the Reminders app.
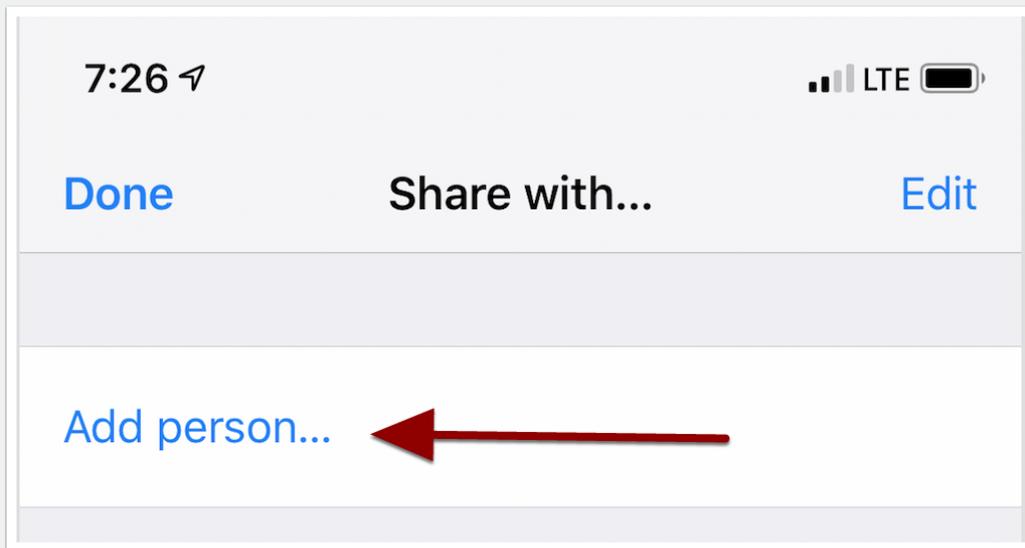

Press the Sharing entry

Press the Sharing entry to share with another person.

Press Add person... and enter an email address to share to.

After you choose Add person... a window will appear asking for the email address to share to.

Press the + button to choose a contact and then press the Add button.

The person you added will receive a message to join your list. That's it! You have now shared your list. Any time you or the shared person adds to the list, it will update on both iPhones.
