

Quickstart - Live Round Viewer Setup

This is the quickstart so that you can watch a player on the course.

Live Round-watcher

The person watching the round should use the Rounds window to get to the Live Round button

Quickstart - Live Round Viewer Setup

Press Live Round

When you press Live Round, you will be prompted to join box.com the first time.

Quickstart - Live Round Viewer Setup

Sign in with the same box account (same name and password) as the player.

Press Live Round again, and then you will be taken to the Live Round window.

You will be able to watch the player move around the course while playing. If multiple people are signed into the same [box account](#), all of them can view the round in progress at the same time. Every time the player stops for a predetermined length of time, a mark is placed and the Live Round is updated. No more guessing where your player is on the course!
